Humic Acids from derived from 6.0%
humic shale ore

NET WEIGHT:

1 gallon: 3.79l / 3.86kg (8.52lb)
2.5 gallon: 9.46l / 9.65kg (21.30lb)

APPLICATION GUIDELINES
DIRECTRICES DE SOLICITUD

PRO HUMIC™

SOIL LIFE CONDITIONER

urth[®]
agriculture

PRO HUMIC™

Restore natural soil balance to increase plant vigor and optimize plant growth. PRO HUMIC™ helps make vital minerals and trace elements more bioavailable and provides greater transport of nutrients directly into plants. Can be safely applied at any time during the growing season without risk of burning.

CROP APPLICATIONS

Add 1/2 - 6 gal per acre depending on crop & soil characteristics.

FOLIAR APPLICATIONS

1-3 gallons per acre. Apply right after seedling stage, before flowering or start of reproductive stage, and in early fruit / vegetable stage.

TREE APPLICATIONS

Drenching and deep root feeding: Dilute with water 40:1. Use at initial planting and then include as part of regular fertilization program. Use 5 gallons of dilute per 1" DBH.

Application rates may vary based on crop and soil characteristics. Contact Urth Agriculture for further guidance.

STORAGE: Store out of direct sunlight in a cool place above 40° F. DO NOT FREEZE.

CAUTION: PRO HUMIC™ is not intended for human consumption. Keep out of reach of children. In case of contact with eyes or skin, flush with water for up to 15 minutes.

NOTE: Information regarding the contents and levels of metals is available at <http://www.aapfc.org/metals.html>
