PRO GUARD™

PREDATORY PEST RESISTANCE

urth
agriculture

PRO GUARD™

PRO GUARD™ uses natural biomimicry to simulate HIGH °BRIX, deterring predatory pests and protecting crops from unwanted infestations - reducing or eliminating the need for toxic chemicals & pesticides. PRO GUARD™ also provides immediate nutrient uptake to help improve crop quality and produce greater yields.

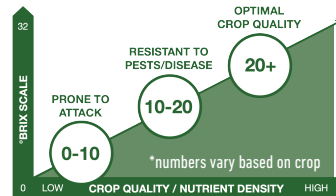

FOLIAR APPLICATIONS

Add 16-22 fl oz to enough water to cover 1 acre.
1 GALLON treats 5-8 ACRES.

°BRIX = A MEASURE OF CROP QUALITY

A plant functioning at its full genetic potential will have high °BRIX and be resistant to pests & disease. Taking °BRIX measurements helps growers predict potential problems. PRO GUARD™ helps to safeguard crops, improve quality, and avoid yield loss / other issues.

Learn more about °BRIX at UrthAgriculture.com

Application rates may vary based on infestation, disease, crop and soil characteristics. Contact Urth Agriculture for further guidance.

STORAGE: Store out of direct sunlight in a cool place above 40° F. DO NOT FREEZE.

CAUTION: PRO GUARD™ is not intended for human consumption. Keep out of reach of children. In case of contact with eyes or skin, flush with water for up to 15 minutes.

NOTE: Information regarding the contents and levels of metals is available at <http://www.aapfc.org/metals.html>
